SUMMARY

I'm an innovative front-end developer with a keen eye for crafting captivating websites and web apps. My passion lies in creating responsive and pixel-perfect digital experiences, ensuring the utmost user satisfaction.
Embracing the ever-evolving world of web development, I continuously strive to push boundaries and shape the digital landscape.
Join me on this exhilarating journey, and together, let's create a remarkable online presence.

EXPERIENCE

Front-End Developer
Rubico IT Private Limited   **March 2022 - Present, Haridwar**

· Collaborated with cross-functional teams to gather project requirements, identify challenges, and propose actionable solutions, leading to the on-time delivery of 10 projects with a 99.9% client satisfaction rate.
· Designed and developed responsive, pixel-perfect web applications using HTML, CSS, Bootstrap, SASS, and JavaScript, achieving seamless performance across devices.
· Diagnosed and resolved technical issues, reducing troubleshooting time and enhancing system stability for over 1Lakh+ users.
· Mentored junior front-end developers through hands-on training and code reviews, resulting in improvement in team productivity and reduced onboarding time.
· Improved user interface designs using advanced frameworks and JavaScript libraries, increasing user engagement metrics across multiple projects.
· Delivered over 10 technical presentations and project demonstrations to stakeholders and cross-functional teams, effectively communicating complex concepts and driving alignment on key project objectives.

PROJECTS

Freedom Fight
Rubico IT Private Limited · January 2024 - November 2024

· Description- It is a no-cost porn recovery program that blends brain science, clinical practices, and biblical wisdom to help men and women to stop addiction.
· Responsibilities- Engineered the front end of the web applications utilizing HTML, CSS, SCSS, Swiper JS, Ionic, and Vue JS, enhancing user interface design and responsiveness across platforms.

SIL Chatbot
Rubico IT Private Limited · September 2022 -September 2023

· Description- SIL Chatbot is a perfect tool for building chatbots that help increase sales, improve customer support, and automate followers' communication.
· Responsibilities- Developed the front end of Web Applications using the latest web technologies like HTML, CSS, SCSS, Bootstrap, and Angular's prebuild components.

Business Connect
Rubico IT Private Limited · May 2023 - July 2023

· Description- It is an e-commerce platform for essential and life-enhancing products related to water treatment, filtration, and sanitation to benefit families in crisis in developing countries.
· Responsibilities- Developed the complete Front-end of the project using technologies like HTML, CSS, JS, and WordPress builder (i.e. Elementor and Divi).
